### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art references of record, singly or in combination, teach or suggest a magnetic recording medium comprising a magnetic layer having a specific thickness, surface roughness and relative friction coefficients as claimed.
2. The copending applications 10/725,414 and 10/725,471 claim a magnetic recording medium comprising a magnetic layer having the same thickness; however, neither of these two applications recites the friction coefficient features of the magnetic layer and the backcoat layer. In addition, neither recites the thickness of the primer layer. As shown in the specification, the physical properties of individual layers in a magnetic recording medium independently influence various aspects in recording capacity of the magnetic recording medium.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.
